FIFTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, OCT. 27, 1904.

No. 43

## MR. NISBET'S STATEMENT

Seconded by Chief of Police Bradley and Others.

DID NOT KNOW THE DANCING SHOW WAS LOADED.

Mr. W. A. Nisbet, of Madisonville, who was indicted by the Hopkins county grand jury upon charge of keeping a disorderly house, because his armory hall was used during the recent street fair for exhibiting questionable dances by a traveling company, has issued a signed statement denying knowledge of anything wrong in the show. This statement is printed below as is also the statement of Chief of Police Bradley with reference to the character of the exhibit, in which that officer saw nothing improper, and the statement of witnesses to the agreement between Mr. Nisbet and the man Mathews who owned the show. The agreement with Mathews, as stated in *The Bee* last week, was that the show should not be immoral.

Mr. Nisbet says:

"I am innocent of the charge of keeping a disorderly house contained in the indictment, mention of which has been made in the county papers.

"Mathews was introduced to me by a reliable gentleman of this place, who told me that Mathews was responsible and had an orderly show. I then rented my hall to him under the agreement that only a decent and orderly show would be given and that it should be subject to visitation by the city officials at any time. See statement of witness to the contract hereto appended.

"Upon renting the hall to Mathews, I requested Chief of Police Bradley and his deputies to watch said show and report to me any improper conduct in the exhibition, on which I would stop the show. Mr. Bradley reported to me that he had had the show investigated and that there was no improper conduct allowed. Policemen Mayes and Barton also visited the show frequently and at my request and reported to me that it was not improper. See statement of Chief Bradley hereto appended.

"This same show was here for a week during the last county fair and I heard no complaint of it. It was licensed by the city during the week it was at my hall and it was subjected to thoroughly police inspection and permitted by the city to run and the license never revoked. I had no knowledge of any improper conduct at the show, despite the precautions I took to discover it, should any occur, and if any did occur it was not my fault. A fair investigation of this affair will show my innocence.

W. A. NISBET.

October 20, 1904.

The following is a statement from the gentlemen who witnessed the contract referred to:

"We were present when a contract was made between W. A. Nisbet and A. M. Mathews in regard to the rent of the Armory for the purpose of giving a show during the recent street fair carnival, October 4, 1904.

"The said Mathews was to conduct a decent and orderly show. If he failed to do so the said Nisbet reserved the right to stop his show any time he saw proper.

"The said Mathews also agreed to allow the city officials at any time they desired to witness the performance. W. J. Nisbet, I. C. Grubbs, W. L. Cates, W. S.

Clift.  
"October 10, 1904."  
Statement of Chief Bradley.

"Mr. Nisbet requested me to watch the show given in his hall and report to him if it was in any way improper. I detailed Policeman Ashley Brown to watch the show and told him to have citizens visit it if he thought it necessary and report to me the result of his investigation. He watched the show and had citizens to visit it and reported to me that he saw nothing improper. I reported these facts to Mr. Nisbet. I also visited the hall, in which the show was held, three times and saw nothing improper.

"CHAS. BRADLEY,  
"Chief of Police.  
October 20, 1904."

### CANDIDATES COMPARED.

Why Theodore Roosevelt is More Popular Than Alton B. Parker—A Catholic Paper's Opinion.

The New York Sunday Democrat, a newspaper that recently bolted Parker and came out for Roosevelt, in giving the reasons why the Parker campaign is languishing and the Roosevelt campaign is booming, says:

"Judge Parker has few of the attributes of popularity; Theodore Roosevelt has them all.

"Parker is timid; Roosevelt is brave.

"Parker is controlled by friends and patrons; Roosevelt is independent.

"Parker represents no policy and has no political record; Roosevelt is one of the acknowledged progressive statesmen of the century and his record is the shining year of militant and advancing Americanism.

"As there is practically no one to vigorously oppose there is no one to actively defend Judge Parker as a political standard-bearer. Theodore Roosevelt invites the fire of partisan enemies and attracts to his support thousands of patriotic and earnest admirers.

"Judge Parker is a weak candidate, an unwise candidate, an unfortunate candidate for the Presidency. A life of judicial monotony and exclusion from political affairs does not appeal to the allegiance of partisans. Theodore Roosevelt is a strong, a vigorous, an invincible candidate for the Presidency. He is a man of action nominated for an electorate of abounding energy, force and progress. He is especially, the idol of the young men of the country.

"It is, therefore, not at all surprising that as the voters contrast these two candidates they should be irresistibly drawn to one—Roosevelt—and should be repelled from becoming indifferent to his antagonist, Parker. Such is the present trend of the present campaign and it is decidedly favorable to President Roosevelt. No reasonable doubt of his election exists or is entertained by anyone familiar with politics, Democratic or Republican."

### Will Elect Bishop Again.

The council of the Episcopal diocese of Kentucky will meet in special session Wednesday, Nov. 16, at St. Paul's church, Louisville, for the purpose of electing

Bishop to succeed the late Bishop Dudley. This will be the third election to this vacancy. Rev. Dr. Murray, of Baltimore, and Rev. Dr. Lloyd, of New York, both having declined to accept the place. A Kentucky man may be chosen this time.

In 20 years the locomotive engineers have not had a strike.

## CRAP GAME RAIDED

City Marshal Igheheart Spots Crap Shooters in a Box Car.

### GATHERED THEIR NAMES BEFORE THEY COULD RUN.

Last Thursday night City Marshal Igheheart while walking down in the railroad yard below Robinson's saw mill heard some one talking in a box car on the siding. On approaching nearer he heard the mysterious words "Come in!" On going up to the car and looking through the partially closed door saw quite a number of Earlington men and boys rolling "the bones" and a full grown crap game was in progress.

After watching the game for some time Mr. Igheheart made his presence known and all the crowd stamped. The marshal took all their names, however, and the trial will come up before Esquire Phillips Nov. 1st.

R. N. Clark was with the marshal when the raid was made. There was apparent a feeling of uneasiness on part of the players, most of whom bolted and ran as quickly as the first alarm was given, after the officers had been watching through a large crack in the door for some minutes.

An interesting time is expected at the trial, when an effort will be made to determine as nearly as possible just who was present and actively participating in the game. The first report concerning prominent men, who it was reported were connected with the affair, promises to be robbed of some of its raciness. It seems certain that some of the names that have been whispered in this connection will not be aired in court for the reason that it is easily apparent that they were not at the game.

**Seriously Injured.**  
While working on the rip track in the railroad yards at this place Friday, Charles Reeder, whose home was in Hopkinsville but who had been working for the railroad company at this place as a car repairer had the misfortune to have his legs so badly injured that it was necessary to amputate one of them.

It seems Reeder was down under the car at work, and two engines, double-headed, handled by the assistant hostlers, were run in this track to get them out of the way of a train. When the engines had gotten in the clear the engineer on the front engine shut off steam but the man on rear engine did not, consequently the front engine was jammed against the shop cars, injuring Reeder as stated above. The injured man was at once moved to the St. Bernard hospital and attended to by Drs. Chatten, Sisk and Johnson. He is getting along as well as could be expected, considering his injuries.

**Directors Meeting Held.**  
The regular semi-annual meeting of directors of the St. Bernard Mining Co., was held yesterday in the office of the president of that company. The visiting directors present were Mr. Messrs. W. H. Howe, of Nashville; Julian F. Gracey, of Clarksville, and E. G. Sebree, of Henderson. The officers and local directors were all present.

**Will Wed.**  
Messrs. Turner, of New York, Bailey, of Philadelphia, and Hanson, of Saratoga Springs, were detailed at home by business engagements or present in different health. Mr. Hanson and Mr. Bailey neither felt like taking the necessary journey this fall. As usual a semi-annual dividend was declared.

## NEW DEPARTURE

For Madisonville—Merchants Dulin & McLeod Will Open Department Store January 1st.

Dulin & McLeod, proprietors of the "Big Store" in Madisonville will add to their business the first of the year by opening a genuine city department store. They have secured the Pratt building and will cut arches through the wall that now separates the two buildings and turn them into one "Big Store."

Clothing department for gentlemen also the Dry Goods and notion department will be kept in the same place it now occupies. Upstairs in the old store a ladies ready-to-wear clothing department is already open with Miss Hallie Witherspoon in charge which will be greatly enlarged after the first of the year.

The building will be heated by steam. Rest parlors will be found for tired shoppers and every effort made to please and satisfy the people.

### TWO RIBS BROKEN.

W. E. Groves Fall From Coal Chute and Has Narrow Escape.

Last Wednesday night while engineer Leonard Huff, who runs one of the switch engines at this place, was taking coal at No. 9 mine Mr. W. E. Groves, who is tinner at night, attempted to step from the coal chute on the engine but missed and fell off the tender to the ground breaking two ribs.

Mr. Groves was fortunate in escaping with his life as he was found lying between the engine and heavy sills of tipple and if engineer Huff had not seen him when he fell his life would have been crushed out when the engine was moved, as the space between the track and the sills is but a few inches.

### EPWORTH LEAGUE RALLY.

Earlington Chapter Will Have Some Good Addresses and Special Music for Sunday, November 13.

The officers and members of Earlington chapter of the Epworth League are making elaborate preparations for their rally Sunday, November 13. Every member of this organization has promised their best efforts to make this meeting a signal success.

Speakers from Hopkinsville, Evansville and Madisonville have been invited to make addresses on this occasion. Some of these gentlemen have accepted and the others will doubtless send in their letters of acceptance this week.

In addition to the speaking, a program of special music will be prepared by local talent, consisting of vocal solos, duets, etc., in all making an interesting and attractive program.

The program complete will be announced by the committee in the near future.

### Had Her Arm Twisted.

One day last week Jane, the three-year-old daughter of Mr. and Mrs. Pete Herb, had the misfortune to have to have her arm badly twisted. Dr. Chatten treated the little patient and she is recovering fast.

### Will Wed.

Cards are out announcing the marriage of Miss Letitia Brown, daughter of Mr. and Mrs. W. D. Brown, of Madisonville, and Mr. Jesse B. Brown, of Clarksville, Tenn. Miss Brown is one of Madisonville's most charming and attractive young ladies and Mr. Brown is a rising young business man of Clarksville.

## SPLENDID RECORD.

Judge Chas. Cowell Asks Leave of Absence From His Work.

### FIRST TIME IN TWENTY-SIX YEARS.

Judge Chas. Cowell occupies an unusual and unique position toward his employers, the Western Union Telegraph Company. He has been lineman for this company for 26 years and during all this time has never, until just now, asked that his place be supplied in order that he might take a vacation or a rest. The Bee believes this is one of the most unusual cases on record in any employment of such active and hazardous work. Judge Cowell has performed the arduous duties imposed by his position with the telegraph company under all conditions of weather and at all hours of day or night through more than a quarter of a century, and is a young and active man yet.

The first time a vacation will be taken by the company will be in a few years ago when Judge Cowell was for a time incapacitated from work by an accident which occurred at Princeton, where he slipped and fell from a pole, alighting on his feet and injuring his ankles. This accident resulted in a partial permanent injury, the effects of which he has felt ever since. He was detailed on special work outside of his own territory when this accident happened. During this active quarter century of high wire pulling the Judge has acquired some decided tendencies toward the higher order of policies and is established as a local worker of ability in the Republican party, having been secretary of the Republican county committee for some years. He has also held for a series of terms the responsible position of Police Judge for the City of Earlington, in which position he has a firm record for fearless and impartial enforcement of the law. It is proper to say that at rare intervals the Judge has been absent from his work for a day or so but these few days have seen his work looked after without the necessity of calling on the Telegraph company to send a man to take charge of his territory. Accompanied by Mrs. Cowell the Judge is spending two weeks' vacation at his mother's, at Carlinville, Ill., and at the World's Fair.

### Possum Hunting.

'Possum hunting has gotten to be quite a fad with Earlington people this fall. A party of ladies and gentlemen, numbering sixteen, with six or eight dogs, went 'possum hunting Monday night and, in addition to having a good time, picking their way through the tangled underbrush and falling over logs, managed to catch a fine, large 'possum.

In a party where there are a number of ladies the usual plan is to ride horseback or walk to the hunting grounds then build up a camp fire and leave the ladies and ladies men while the real hunters and the dogs go in the woods after the night prowling varmints. When a 'possum is treed and caught he is brought into camp and left while another round is being made. Sometimes the dogs tree a polecat instead of a 'possum, which makes the sport all the more interesting, provided one does not get too near the cat.

### Twins.

The stork left two fine baby boys at the home of Henry Wyatt and wife Tuesday. Mother and babies getting along nicely. People who hope for the best do most to secure it.

## ROBBED POSTOFFICE

AT WHITE PLAINS.

Thieves Made a Water Haul as Far as Uncle Sam is Concerned, but Touched the Store Heavy.

On last Thursday night thieves entered the postoffice at White Plains and robbed the government of 20 cents. While the loss to your Uncle Samuel was slight, John Hawkins, postmaster, did not fare so well. The light fingered gentry succeeded in carrying off goods and notions to the value of \$60. Entrance into the building was gained by removing a pane of glass from the rear window of the store. The thief or thieves, as the case may be, evidently had plenty of time, as they selected the best goods and those most easily carried. The money drawer in the postoffice contained only 20 cents.

### WINS A HOME.

County Court Clerk J. B. Brasher the Lucky Man.

County Court Clerk John B. Brasher held the ticket winning the lot on which the home of Judge Gordon stood. Judge Gordon divided his place near Madisonville, consisting of his residence and 40 acres of land, into 100 lots valued at \$100 each and sold the 100 tickets, numbering from 1 to 100, to various parties, each party to secure a lot, but none of the purchasers knew which lot they were to get until the drawing took place. The numbers were placed in a box and drawn out by a disinterested party. Mr. Brasher secured No. 1, which called for the home place. The Morton-Gordon Real Estate Co. held 20 shares, Col. E. G. Sebree seven and L. A. Teague five. Judge Gordon will give possession on the 1st of January, and will likely move into Madisonville.

### WENT NUTTING.

Mrs. Browning Hurt by Falling From Wagon—Injuries Not Serious.

Mr. and Mrs. Jno. Twyman and son, Paul, Mrs. Harriet Browning, and Misses Mabel Browning, Irene and Bessie Col, and Hazel and Lucy Fawcett spent Sunday afternoon in the woods hunting nuts, leaves, maiden-hair ferns, &c. Mr. Twyman drove the wagon, while the inmates amused themselves by jumping in and out the rear and otherwise having a good time.

In some manner Mrs. Browning's dress became fastened to a nail in the bottom of the wagon and she was thrown to the ground, striking on her head. The wound, while nothing serious, was quite painful for several hours.

### HAMBYS GET DAMAGES.

Sued Crabtree Coal Company for \$2,500. Verdict Returned for \$750.

In the case of O. H. Hamby et al. vs. Crabtree Coal Company the jury returned a verdict of \$750, although suit was brought to recover \$2,500. The Hamby's claim their farm was damaged by coppers water from the Crabtree mine running over it. This trial lasted several days and quite a number of witnesses were examined. It is not yet known whether or not the case will be appealed. Circuit court adjourned Saturday and no further work will be done until a special term of court is convened the first week in January.

Church, South, preached at Wheatcroft Sunday but will not do so again, since advice has been received from presiding Elder Orr that Wheatcroft is taken off this circuit. This will give Bro. King two Sundays at Earlington. The action is result of the official decision of the Earlington congregation, who have wanted more of the pastor's time and have now arranged with the presiding elder to that end. Bro. King is not sorry for the change, since he figures to make the monthly trip to Wheatcroft for a year he would travel over 700 miles. That church is two miles distant from Earlington that the Cerebral Society, the police force, which the pastor was moved to this place. Next Sunday Bro. King will preach to the Earlington congregation.

Take half of Hall's Family Pills for constipation.

The family of Mr. O. P. Webb was awakened last night, about 1 o'clock, by the groans of someone, who seemed in great pain. Each member of the household thought it was one of the others and rushed from room to room, finally locating him in the parlor. Mrs. Webb had heard a noise sometime before, but thinking it one of the family, did not investigate, but as soon as the groaning began she rushed to the room from which the cries came and was the first to discover a man sitting in a rocker with his hat pulled over his eyes and kicking and yelling. Still thinking the sufferer was her husband, Mrs. Webb stepped over to his side, raised his hat and asked what was the matter, but when the man stupidly looked up she turned and met the remainder of the family at the door. When asked his name the man persisted that it was "Patrick Henry." The stranger was a large fellow, with black mustache and well dressed and had evidently gotten off the train and wandered in the house, attracted by the electric light on the front porch. The door will be locked at night after this.

Miss Maher Injured.

A new Madrid, Mo., paper tells of a painful accident to Miss Ellen Maher, whom many Earlington friends will remember. Miss Maher is a cousin of Mrs. D. M. Evans and Mrs. F. B. Arnold and has visited Earlington several times. The paper says:

Many friends of Miss Ellen Maher sympathized with her in the accident she met with while visiting with Mrs. David Mann Wednesday morning. The buggy wheel came off and in jumping from the vehicle Miss Maher sustained a compound fracture of the limb just above the ankle. Friends carried her to her room, and Drs. O'Bannon and Watson attended her.

TO THE PENITENTIARY

Prisoners for Eddyville Furnished by The Circuit Court Grind.

Last Friday saw another exodus of prisoners start from the Hopkins county jail to the Eddyville penitentiary as a result of the finished grind of circuit court. Sheriff Ashby and several guards passed through here, as is customary, taking the party to St. Charles where they caught a train for Eddyville. The list of prisoners follows:

Sam Whitaker, breaking in depot, 2 years; Ed Knott, for gery, 2 years; Sam Short, breaking into warehouse, 2 years;

George Berry, shooting at another, 2 years; Jim Brasher, malicious shooting, 1 year; J. E. Stevens, malicious shooting, 1 year; Willie Hudson, burglary, 4 years; John Ivy, housebreaking, 2 years; John Garrard, shooting and wounding, 1 year. There was only one white man in the bunch, John Ivy.

Confirmation.

## EDUCATIONAL DEPARTMENT

### The Lead Pencil Evil.

One practical lesson that ought to be taught in every school is that a lead pencil should never be put in the mouth.

More important than the study of algebra, the study of Greek and Latin in the study of rhetoric or the study of literature, is the lesson that a lead pencil should never stick in the mouth. Nearly every scholar has this habit and a very pernicious habit it is.

If the schoolteacher would insist upon this as a rule, and correct every child that has this filthy habit it could be broken up. People who have passed through schools and have formed the habit of putting the pencil to the lips every time it is used are beyond hope. But with the children something could be done.

The pencil does not write so well after it has been wet as before, but there seems to be a notion that in order to make the pencil write, it must be moistened with the lips. This is not true. Probably everybody knows it is not true. In public places, people who are very squeamish, ordinarily, will pick up a pencil that has been used by hundreds of other people, and the first thing they do is to put it in the mouth.

It is a habit that ought to be broken up. Every school teacher should take up the crusade. Pupils should be told frequently never to put the pencil in the mouth. When caught doing it, some sort of punishment should be inflicted upon them until they get it into their heads that the practice is ridiculous and dangerous to health. While the graphite that composes the so-called lead of the pencil is not of itself a very harmless substance to be taken into the mouth yet the point of the pencil is necessary dirty.

Those people who are so afraid of microbes ought to remember that no better carrier of microbes exists than a lead pencil that has been sucked by Tom, Dick and Harry.

## "TAILOR MODES FOR WEAR IN THE FALL."

"Dressy Modes may change quickly, but Manish Tailor Styles are likely to last." "Tailored Gowns give apparent height to the petite girl—Three-Tiered Skirt for the very tall girl."

WHEN in doubt, buy a Tailored Suit. The fashions in the "dressy" frocks may change before the first frost arrives. A style which the modistes confidently expected to make a pronounced hit may fall flat. A "dressy" mode which is good in September may be very, very bad when the Christmas snows fall. But the tailored fashions, settled while yet the summer girl was taking her first dip in the salt water, are sure to last.

Men tailors determined the lines on which the genuine tailor made dress should be built and somehow the feminine mind bows before the masculine edict.

NOW that MISS BROWNING has returned with her second purchase of Cheviots, Unfinished Worsted, Tweed Mixtures, Worsted Warp, Broadcloth in the very newest shades, any one of which is admirably adapted to either the Tailor Made Suit or Skirt, and besides these has selected with her thoroughly trained eye and sound judgment some most excellent SILKS, these being "quite the thing" for SHIRT WAIST SUITS, and put on sale at remarkably close and attractive prices—49c, 65c, 75c, 90c and \$1.00 the yard, and with these shows the most beautiful shades in a 30 inch Satin Stripe Wool Chalat at 50c the yard, that to be sold needs but to be shown, for how can one find any other material so perfectly adapted to Shirt Waists as this exquisitely shaded, soft fabric? And, in fact, has given our entire stock of DRESS GOODS and all departments pertaining thereto a very decided completeness. We doff our hat to the buying public, the numerous wishes of which we have striven so untiringly to anticipate, and respectfully ask a call, that we may the more thoroughly establish our claim to standing second to none in point of completeness of assortment and correctness of prices.

THURSDAY, OCT. 27, 1904.

PRESIDENT ROOSEVELT has sent out to the signatory powers of the original Hague treaty an invitation to come together again for the purpose of perfecting plans to further ameliorate the horrors and frequency of wars and to protect commerce of neutral powers on the high seas. The President is for peace with honor wherever possible, notwithstanding the campaign slush that paints him bloodthirsty.

NOTWITHSTANDING the occasional gains made by Gen. Kropatkin and the consequent rise of Russian spirits, the Russian navy is still in a state of panic. The Baltic squadron has probably learned by this time the difference between an English fishing fleet and a squadron of Japanese torpedo boats. There is a difference which may become more apparent as the Russian vessels get into Oriental waters.

It is reliably reported that the race for Democratic county nominations will not heat up right good until after the November election. There will certainly be hot times in the party ranks and the roads kept mighty dusty if the many candidates go a much livelier pace than now. There ought to be a plenty in the offices sought to justify such a scramble for the nominations.

The advice to the young man, to plant a tree, with the admonition that it would grow while he slept, was good. And this is the time of year to do the planting, be it fruit, shade, ornamental in nature. Everybody should have fruit and some shade. It costs little money or effort to plant a few good trees and, besides, the pleasure derived, nothing improves or enhances the value of property more. Plant trees now.

The local officials are doing a good work for the boys and for the good morals of the community in endeavoring to run down the crap game. Liquor drinking is the natural accompaniment of the gambling habit and boys will be drawn into both who follow the crap shooter or the gambler at cards. It is to be deeply regretted also that any man should risk his surplus earnings, large or small, upon a blind game of chance. The earnings should go to the support of the family, as all will agree, and any action of the officers or any punishment under the law that will protect the boy from temptation and the family from being deprived of its dues will be applauded by the community at large and will insure to the general public good.

## POLITICAL POINTS.

While the regular candidates are making their way about the country, Dr. Swallow should start his campaign tour. —D. B. H.

—D. B. H.

"You're the first Parker man I've seen," said an Illinois man to a New York Democrat who had stayed away from the city and traveled west with a plowshare.

"What's that?" said the New York man. "we don't expect to elect Parker, but we are gathering the pieces together to reconstruct the regular Democratic party, leaving out the wild-eyed [redacted] and the [redacted]. In about eight years we'll be ready for him."

Poor Old Rooster.  
The Democratic rooster sighs, with a mournful glance; "I would crow like I used, But I don't get the chance."

The Railway Employes' Twentieth Century Club of Illinois adopted a resolution endorsing President Roosevelt and denouncing the Democratic national platform as "devoid of sincerity."

## A THOUGHT FOR THE WEEK.

## Does Advertising Pay.

"Once when I was publishing a paper in Seattle I convinced a man in the most emphatic way that it paid to advertise," says an old journalist in Collier's Weekly.

"He was a fairly prosperous merchant, and I had tried for a long time to get him to insert an advertisement in my paper:

"Oh, it's no use!" he would say. "I never read the advertisements in a paper and no one else does. I believe in advertising, but in a way that will force itself upon the public. Then it pays. But in a newspaper, 'shaw! Every body who reads a newspaper dodges the advertising pages as if they were poison.'

"Well, said I, if I can convince you that people do read the advertising pages of my paper, will you advertise?"

"Of course I will, I advertise wherever I think it will do any good."

The next day I had the following line struck in the most obscure corner of the paper, between two patent medicine advertisements:

"What is Cohen going to do about it?"

"The next day so many people came to my office by asking him what that line meant that he begged me to explain the matter in my next issue. I promised to do so if he would let me write the explanation and stand for it. He agreed and I wrote: 'He is going to advertise, of course. And he did."

## CONFEDERATE REUNION.

Annual Gathering at Pee-wee Valley announced by Commander Young.

Louisville, Ky., Oct. 22.—Col. Bennett H. Young, Commander of the Kentucky Confederate Veterans, has issued an order for the annual reunion to be held November 11 at Pee-wee Valley.

The call is later this year than usual, being delayed by the desire to have the new buildings at the home completed in order that the members of the reunion might have an opportunity to inspect them. The infirmary and other buildings will be dedicated formally at the reunion and Gov. Beckham will be present.

A commander for the State division and also four commanders for the four brigades which exist under the State organization will be elected. The State is entitled to 163 votes and the camps are requested by the commander to select delegates.

## LOCOMOTIVE BLASTS

Al Reddix, the night watchman at Howell, is a lover of fine horses and will not own any other kind, though he is ready to part with any steed when a good price is offered him. He has just sold his fine black "Wilkesboy" to Albert C. Gleichman, contractor and builder in Evansville, Ind., for \$250.00 cash.

Charles Mitchell, the fireman on the St. Louis division coal train, has resigned. T. L. Howell fills the vacancy.

Switch Fireman J. D. Henderson has resigned on account of sickness. He has taken service with Mr. Jones in the yard at Evansville.

J. R. Griggs, engineer at Bakers Hill, Tenn., was at Howell Thursday on business.

Dorsey B. Smith, of McLeansboro, Ill., spent a few days at Evansville last week. He has a large circle of warm friends there, having formerly been in the employ of the L. & N. He is now private secretary to A. L. Mehler, of the Oregon Railroad and Navigation Company, with headquarters in Portland, Ore.

T. M. Heggy, foreman at Mt. Vernon, Ill., was in Evansville Wednesday of last week.

Theodore Mode, of E. St. Louis, went to Howell Friday to be examined for switch fireman.

Cecil Coker, the engine watchman at McLeansboro, Ill., is spending this week at the Fair.

Fireman Harry Joyce is at E. St. Louis running switch engine for a while.

S. S. Roberts formerly assistant engineer at Evansville, is now roadmaster at Elizabethtown.

L. C. Coker has left the mechanical department to go brakeman.

Engineer J. T. Looney has gone to New Orleans with Mrs. Looney, on her way to Houston, Tex., where she will spend some time for her health.

A. J. Bruning, foreman painter, Howell, is traveling over the entire system in the interest of passenger coaches being given proper attention at terminals.

J. J. Sullivan, master mechanician at New Decatur, Ala., while on his way to the Fair at St. Louis, stopped off at Howell Tuesday and spent a few pleasant hours with Mr. Walsh.

W. A. Goff has been transferred from switch engine at Guthrie to firing on the road. M. A. McAfee gets the place at Guthrie.

M. M. Melton, after a long rest on the farm near Crofton, has returned firing.

## CASE CONTINUED.

Pembroke Negroes Will Not Have Their Trial This Year.

The cases of Charles Finch and Ed Moseley, the last two negroes to be tried for the murder of the unknown man near Pembroke last November, was called in Circuit Court at Hopkinsville Monday. The Commonwealth announced not ready, owing to the absence of several important witnesses, and the cases were continued until the spring term. Finch is in jail and Moseley out on bond.

## PRINCETON POST OFFICE ROBBED.

Princeton, Ill., Oct. 23.—The post office at Bradford was robbed Friday morning. The burglars broke open the safe and secured \$45. Several persons saw the men driving away in a spring wagon.

## Big Snow in Michigan.

Gaylord, Mich., Oct. 24.—There is four inches of snow here. It has been snowing for 20 hours.

## Killed by Highwaymen.

Chicago, Oct. 24.—While resisting an attempt to rob his as he sat in his place of business Sunday night, William H. Kneierling, a saloonkeeper at 8300 Princeton avenue, was shot in the abdomen by one of four highwaymen and died in a few minutes.

## MINING NOTES.

## Industrial Revival in Knox County.

"Knox county is undergoing an industrial revival," said H. C. Cole, at the Willard Hotel in Louisville last Saturday night, "and new oil and coal men are coming in every day. There has been a slight waning of interest in the oil industry during the past few weeks, but a strike made a few days ago on the John Mays place, two miles north of Barberville, has aroused all of the old time enthusiasm.

"Three new coal mines are being opened in the county, one on Brush creek and two near Ely's station. The coal mines are one of the county's most important assets, and give employment to a great many men. At the new mines tracks are being laid, and the actual mining will soon begin."

Mr. Pat Blair, of Mortons Gap, visited friends and relatives here Sunday.

Charlie King, (col.) a machine man in No. 9 mine, cut 18 rooms last week or an average of 3 rooms a shift making him \$3.75 every night that he worked.

The Ingles Coal Co., has filed articles of incorporation at Frankfort, Ky., with Lewis Ingles, president; Ray Moss, vice president; John Ingles, secretary, and Harvey Ingles, treasurer and general manager (all of Middletown) for the development of mineral lands in Knox county.

The Paducah division of the Illinois Central R. R. has had assigned for its use a large number of new center dump coal cars holding 50 tons each. These cars are of the large type and will be used in hauling coal from the various mines located on that division.

James Ligon, who has been running the compressor at the shaft, has been assigned to the Arnold mine where he will run the compressor at that place.

Mt. Sterling, Ky., Oct. 24.—The miners at the coal mines of Richardson, Trabue and Norman, have gone out on a strike, closing down all three mines. One hundred men went out. The miners demanded an increase of ten cents per ton in mining coal, which the operators refuse to give. No trouble is looked for.

A dispatch from Sturgis, Ky., says that a new railroad is being planned and will shortly be surveyed from Providence to Shawneetown, Ill., connecting the two divisions of the L. & N. R. R. which runs into these two towns. The movement is headed by two well known Union county citizens and the capital is furnished by two prominent capitalists of New York who have large mining interests in Union county.

The Morton & Gordon Company composed of Messrs. Jno. G. Morton, Wm. L. Gordon and M. K. Gordon (all of Madisonville) have filed articles of incorporation at Frankfort. The company is incorporated with the power to buy, sell and deal in coal, minerals and mining and minerals, to open mines and sell the products of these mines. It is the intention of the company to begin the development of mineral lands in the near future.

The new shaft which the Nortonville Coal Company have been sinking at Nortonville for some time, has been completed and is now in operation.

Mr. J. W. Smith, the capitalist and promoter, of Owensboro, was in this district last week and took options on many valuable mineral properties. The deal he has on foot is one of gigantic proportions and will amount to probably a million dollars.—Crittenden Press.

### BALDWIN'S AIRSHIP SAILS

Enclosed Administration Building  
at World's Fair in Fall View  
of Thousands.

St. Louis, Oct. 26.—The dirigible balloon of T. S. Baldwin, the San Francisco aeronaut, was sent up at the World's Fair on Saturday afternoon, Oct. 22, with A. R. Knabenshue, of Toledo, O., on the frame controlling it. The ascent was made as a trial effort and the airship did remarkably well until the seven horse-power motor stopped while the balloon was over the Plaza St. Louis. After that it drifted to the ground. The balloon, prior to the breaking of the engine, made two complete circuits over the Administration building at the fair, and clearly demonstrated to Capt. Baldwin the inventor of the ship, that it was capable of being steered and sent in any direction.

When the ascent was made during the afternoon, the wind was blowing in gusts at intervals. Notwithstanding the wind, the balloon was able to ascend rapidly. Harry Hudson, chief of aeronautics, of the fair, declared that the balloon was eligible for the \$10,000 prize contest.

### TROY, O., IS FIRE SWEEPED

A Dozen or More Business and Dwelling Houses Were Completely Destroyed.

Troy, O., Oct. 24.—A fire which started in the livery stable of W. H. Gillis, in the heart of the business section of the city, was the most severe this city has ever experienced. The fire destroyed, in all, a dozen or more business and dwelling houses. The aggregate loss will be at least \$75,000, with no statement of insurance. The Piqua and Tippecanoe fire departments responded to calls for assistance.

**FIERCE FIRE AT MEXICO, MO.**  
One Man Lost His Life and Another Was Fatally Burned—Property Loss Great.

Mexico, Mo., Oct. 24.—In a fire that destroyed property valued at \$10,000 here, Sunday, a negro employee of a livery barn lost his life, and W. R. Knobell, a veterinary surgeon, was fatally burned. Among the buildings destroyed were the First Methodist church and Lee Brothers' livery barn; 35 high class horses were lost.

### Society Event of the Season.

From all indications the society event of the season will be the forthcoming production of *A Girl From Dixie*. Altogether *A Girl From Dixie* presents in most happy proportions the combination of light, catchy and popular music as well as genuine comedy of the most refined nature. The construction of the piece is radically different from the modernly accepted types of musical comedy. *A Girl From Dixie* being more in the nature of a comedy with the accompaniment of enlivening songs and choruses.

Some of the musical numbers that are sure to be well received are "The Lover's A. B. C.," "Happy Days in Dixie," "The Sunflower and the Sun," "When the Moon Comes Peeping O'er the Hills," "Glory," "The Dissipated Kitten," "Apple Orchard," and "Honey."

Morton's Theatre will be dark for three weeks after this engagement.

## CORN SHUCKIN' TIME.

William J. Burris in "Indiana's Writers of Poems and Prose."  
Dear old summer's a'biddin' adieu;  
An' nature's a'puttin' on a golden hue;  
An' by the rooster's crowin', the hen's cackle;  
The bleatin' o' the sheep, the lowin' o' the cattle;  
The barkin' o' the dog, the gruntin' o' the swine;  
You fellers in the city, your lot's nuthin' side o' mine.  
Dove here in the country when it's corn shuckin' time.

I see several inquiries in the Southern Planter as to keeping skippers out of hams. For sixteen years I have cured from 100 to 150 hams per year and have had a skipper on any of them. When you take the meat out of the salt to hang it, clean off the loose salt and apply pulverized borax to the cut parts.

Skippers will not bother the meat if kept in a light smokehouse. A large baking powder can with holes in the top is a good thing with which to apply the borax. I have never had any complaint from my customers and the hams do not show that the borax has been used and it is not injurious. All the farmers in the country of the country use this remedy and there is very little loss from skippers.—Alexander Black in Southern Planter.

Hunt the file an' whetstone, sharpen up the pins;  
Get a saw an' hammer, straighten out the bins;  
Buy a box o' axle grease, dob it on the trucks;  
Patch out the "end gates", put the "side-boards" up.  
Call in the mules an' drive 'em down the line;  
Don't you hear them Brayin'?"—It's corn shuckin' time.

Get out an' hustle, boys, never mind the frost;  
Keep up the "down row", let not an ear be lost;  
Sail 'em in the wagon, pile 'em way up high;  
You'll drive in with your "forty" bye an' bye;  
Hollow "hoo-a-hoo-a-hoo!"—yell it out sublime,  
Let the country know that it's corn shuckin' time.

Now I'm in my glory, feelin' best of all;  
Never feel that way, 'ceptin' of a fall;  
When the table's laden with fruits  
the summer bore,  
An' a' fellers feel like eatin' more an' more;  
You fellers in the city, your lot's nuthin' side o' mine.  
Dove here in the country when it's corn shuckin' time.

I see several inquiries in the Southern Planter as to keeping skippers out of hams. For sixteen years I have cured from 100 to 150 hams per year and have had a skipper on any of them. When you take the meat out of the salt to hang it, clean off the loose salt and apply pulverized borax to the cut parts.

Skippers will not bother the meat if kept in a light smokehouse. A large baking powder can with holes in the top is a good thing with which to apply the borax. I have never had any complaint from my customers and the hams do not show that the borax has been used and it is not injurious. All the farmers in the country use this remedy and there is very little loss from skippers.—Alexander Black in Southern Planter.

Hunt the file an' whetstone, sharpen up the pins;  
Get a saw an' hammer, straighten out the bins;  
Buy a box o' axle grease, dob it on the trucks;  
Patch out the "end gates", put the "side-boards" up.  
Call in the mules an' drive 'em down the line;  
Don't you hear them Brayin'?"—It's corn shuckin' time.

I have heard it stated by some experienced farmers that corn-cobs ground in the feed will hurt the stomachs of the horses, although they will do no harm to ruminating animals. Other experienced farmers state that the cobs will not harm any stomach, but give no nourishment and call it useless trouble for the stomach. A man near here who keeps milk cows has practiced boiling cobs for his cows, and claims he gets from every half bushel of boiled cobs four pounds of milk. He is quite satisfied, and says it pays to take the cobs if they are boiled before feeding. There are, however, authorities upon this subject who state that the only advantage to arise from seeding cob-meal is attributable to the stimulus of the distension of the animal's stomach; the nutriment derived from cobs being very dearly bought, and that beyond the stimulus which cobs afford in distending the stomach, there is nothing gained by feeding it.—Cor. Epitomist.

Many a farmer who has retired and settled in some village, town or city, is winding up his days in home-sickness and isolation. He finds the city a closed book so far as genial companionship and pleasant living are concerned, and in most cases the retired farmers are downright unhappy in their new surroundings. For good old hospitality, command us to the country with its plain living on the salt of the earth.—Midland Farmer.

It takes more age to develop a heavy-boned animal than it does a light-boned one, and the heavy-boned animal does not sell as well.

To have horses get the greatest benefit from their feed, give them sufficient time to masticate it before putting them to work after a meal.

Oats are the material which the good roaster will turn into travel. A little careful observation will enable one to determine how much grain the horse ought to have.

Imitate nature as much as possible in securing forest conditions in the orchard, by keeping the soil well shaded with mulch or some growing

crop that can be worked back into the land.

Every poultry yard in which, say, even 100 birds are reared annually, should be provided with a place specially devoted to penning sick birds, where an invalid can be at once isolated.

To get the best prices for eggs one must not lay them to sell, but must have enough hens to supply the demand. All eggs should be collected daily, and should not be allowed to remain unsold over twenty-four hours.

## A DINNER AT DELMONICO'S.

Careful Filipinos Do Not Favor Independence Now.

John Brisben Walker has made the assertion, in support of his anti-imperialistic sentiments, that at the dinner given at Delmonico's, by the New York Chamber of Commerce, to the forty-six Filipino Commissioners, Senor Tavera, the head of the Commission, made a speech, in which he said:

"We believe ourselves amply able to administer a republic; give us the direct assurance that we shall have our independence. So far from such an assurance doing harm, it will serve to pacify every dissent, dissension, and argued."

This speech, made of course in Spanish, was translated by A. W. Ferguson, according to Mr. Walker "a translator of the most delightful aptitude." He has known the Filipino language, over four years, and is a close friend of Dr. Tavera. It is true that a speech was made by Tavera, but about the passage in question Mr. Ferguson says:

"Such a sentiment from Doctor Tavera is so absolutely at variance with all his public utterances in the United States, and with what I know to be his personal opinion on this matter that I would do great harm to him and to his people, among whom I have lived in closest intimacy for over four years, did I not set you right on this point."

"I cannot recall one phrase, even, that could have been so misinterpreted, and I am chagrined to think that on so important a subject I could have been misunderstood, after more than fifteen years of experience in interpretation of matters between nations and peoples requiring the most perfect accuracy and the greatest delicacy in handling."

"What I recall in this connection is that the Doctor (Tavera) said:

"Were I asked if the Filipino people could govern themselves, I would answer: 'After the Spanish fashion—yes; after the American—no.'

"And then, as at many other times, both in public and in private, he went on to show that his people must be educated up to a proper appreciation of American citizenship before they should be granted full self-government; that they have confidence in the intentions of the American people and government; and that all they ask is that when the time comes to act definitely upon the question of the political future of the inhabitants, the people shall be consulted."

"I do not recall that he plead either then or at any time for any assurance from the Government as to ultimate independence, as he is quoted as doing in the sentences that follow the sentences that I have cited above."

Further, Mr. Ferguson says:

"That the Filipino people as a people hope for ultimate independence, I do not for a moment deny; but that they are intelligent and better informed—Filipinos as a class the best equipped to express the 'consent of the governed'—believe that they are ready for it now, I absolutely deny."

"It is not too much to say that even the most sanguine of this latter class, of which my friend, Doctor Tavera, is easily a shining example, would be timid about accepting absolute independence were it freely offered them by the Government of the United States today, and I know whereof I speak."

"The cost of an army and a navy large enough to protect them from the rapacity of other nations, the fear of many nations that they do not hesitate to name, and the danger from internal dissension, all make the thoughtful Filipino very slow in pleading for that which every man in his heart naturally and rightfully wishes—his independence before the world."

"But it is not my time to be heard on this subject, and I only mention these things to show the impossibility of Doctor Tavera having made the statement attributed to him with reference to 'administering a republic.'

"There is absolutely nothing in his makeup that would give a ray of hope or comfort to the so-called anti-imperialists, except the desire born in every man for freedom, and the hope cherished by him and his people, and fostered by our Government, that some way, and somehow, the God of nations may so order the destiny of the Filipino people that some day they may be safely granted their independence."

## THE WELFARE MANAGER.

Title of a Recognized and Helpful Intermediary Between Employer and Employee.

Within the last few years there has been created in the industrial world a new and known title of the welfare manager. It should not be forgotten, however, that this term was invented to fit an office already in existence, and that it was not so invented until much valuable work of pioneer character had been accomplished.

This manager, who may be either a man or a woman, is a recognized intermediary between the employers and employees of mercantile houses and manufacturing plants which possess any pretensions to size and importance. Such a person represents the choice of an employer who would introduce among his employees improved and more favorable conditions, but who, hampered as he is by the complex ramifications of the industrial and social world of today, and unable to attend personally to every detail, finds himself obliged to summon to his aid the services of an intermediary between himself and those in his employ.

It is the employer, not the employee, who has chosen this intermediary and outlined the scope of his managerial work. At the same time, in order that his work may not be defeated by the presence of too much friction in his establishment, he has been at pains, when making his choice, to respect the sentiments and prejudices, and sometimes even the dignities, of his employees. In no case coming under my observation, has he failed to remove a welfare manager unable to preserve the harmonies. For such a manager, it must be understood, is unlike a superintendent or a foreman, and has no direct authority in the business, nor power to enrage or to dismiss an employee.—From Lillian French's "A New Occasion" in the November Century.

## The Best Doctor.

Rev. B. C. Horner, Sulphur Springs, Texas, died on July 10th, 1892. He had used in my family Ballard's Snow Liniment and Ballard's Snow Syrup, and they have proved certain and effective. I can assure you that they are the best we have ever used for rheumatism and pain. The cough syrup has been our doctor for the last eight years." 25c, 50c, \$1.00.

HAPPENINGS  
IN KENTUCKY.

Mr. L. A. Teague, a young lawyer of Madisonville, has broken all records for bowling in that city. He made sixteen consecutive strikes, bowling one game, and making the straight strike in a second. Mr. Teague won a prize of a \$40.00 suit of clothes which was offered by the management of the club.

Mr. Nathan Favis, who lives west of Wingo, was kicked in the head last Thursday by a mule from the effect of which he died Friday. Mr. Favis was 55 years of age and a prominent man in the community.

At a late hour Saturday night John Whitedge, a Henderson county farmer, walked into the cellar of W. S. Johnson's drug store in Henderson. He fell ten feet on to a brick floor breaking a broken wrist and Hardy some bad bruised.

Gip Griffin was arrested last Sunday night at the home of his father-in-law, Bud Huddleston, in North Christian and jailed at Hopkinsville. Griffin shot Henry Warner while at work in his field June 22, inflicting wounds from which Warner died.

Augusta Griffin was a tenant on Warner's farm, and they fell out over working a team.

Mr. Chester Norton, of Louisville, while playing football at Yale University during a skirmish suffered a broken ankle and severe cuts about the head.

A large barn filled with tobacco on the farm of James Jefferson, of Christian county, was destroyed by fire on the 24th. The tobacco belonged to Jefferson and William Light, the latter a cropper. Loss \$1,500.

While W. H. Elliott, Wm. Dutton and Isaac Hardy were at work on the Home telephone line near Newstead a guy wire gave way and the men fell twenty-five feet. Elliott sustained a broken leg, Dutton a broken wrist and Hardy some bad bruised.

Gip Griffin was arrested last Sunday night at the home of his father-in-law, Bud Huddleston, in North Christian and jailed at Hopkinsville. Griffin shot Henry Warner while at work in his field June 22, inflicting wounds from which Warner died.

Augusta Griffin was a tenant on Warner's farm, and they fell out over working a team.

Hopkinsville is soon to have a \$15,000 Y. M. C. A. building.

Wallace B. Bell, member of a prominent Louisville family, committed suicide in his room in Chicago on the 23rd, by gashing his throat with a razor, and to make sure of his purpose of suicide, had broken the gas pipe so that the deadly fumes filled his room. He was thirty-two years old. His ability as an athlete secured recognition in his appointment as physical instructor at the Y. M. C. A. and later at Center College, Danville.

## Can You Eat?

J. B. Taylor, a prominent merchant of Christian, Texas, could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was to give me all sorts of concocted heating and cooling cures effected by the use of Kodol Dyspepsia Cure. I concluded to try it. The first bottle of benefit I am fully restored to my usual strength, weight and health. Kodol Dyspepsia Cure digests what you eat and cures.

Hopkinsville is soon to have a \$15,000 Y. M. C. A. building.

## Amusements

"Comparison"—Good Meal and Amusement.

Phrenologically speaking, your bump of mirthfulness will increase in size if you will witness "A Breezy Time" at Temple Theatre Nov. 8. A man who is imbued with jollity never can bear any derangement of the brain, nor worry himself about his longevity, as it is an acknowledged fact that mirthfulness will produce long life, besides bringing out the better qualities of the inner man, and next to a good meal a man wants amusement, and when it can be obtained as easily as it can by witnessing that unequalled bunch of laughmakers—A Breezy Time Company. First class in every particular.

## Newest and Best.

"A Girl from Dixie," which comes to Morton's Theatre tomorrow, as given under the direction of Sam S. Shubert, is his newest endeavor in the field of musical comedy and is the work of Harry B. Smith, author of "Robin Hood," etc. The English method of having several composers contribute their efforts to a production has been followed and the following representative list of musicians have furnished music in various numbers which is written in characteristic style, so that the widest variety is afforded music lovers: Victor Herbert, Ludwig Engländer, Baldwin Sloane, Cole & Johnson, George Rosey, Max Witt, Will Marion Cook, William E. Cook, Henry Waller and Manuel Klein. The characteristics of each, affording a scope wide enough to permit all the changes to be run, from syncopation to the most classicism.

The next attraction at Temple Theatre after "The Moonshiner's Daughter" will be Fitz & Webster's newest, "A Breezy Time." The adjective that is included in the title of the farce comedy, "A Breezy Time," fully indicates the nature of the production.

It has been the purpose of the author to make the performance breezy, simply refreshing enough to revive dimmed minds, and not cause the mind to sit down and doze off. The company includes 29 of the cleverest farceurs in the profession, each having been selected to exactly fit the role he or she may be cast for.

"The Moonshiner's Daughter," now in its third year, will be presented at Temple Theatre Saturday night, Oct. 29. It is an original melodrama in four acts and eight student scenes, thrilling, possessing startling and surprising scenes and situations of intense dramatic power. It wins strong recognition from all classes and can be truly rated as the most conspicuous success of the past two seasons. Abundant life and color combine to make this one of the best American plays ever produced. A thrilling and exciting melodrama dealing with the mysteries of the revenue service, the danger and excitement of hunting down moonshiners in their hidden retreats. With a strong, healthy sentiment underlying the play from beginning to end, tremendous, powerful and convincing.

A laugh every minute, a cyclone of surprises.

Matinee prices, 15 and 25 cents. Night prices, 25, 35 and 50 cents.

"A Breezy Time," which will be seen at Temple Theatre Nov. 8, is one of the most effective farce comedies in town this season. It is diverting without being inane, and has a slight story which makes a very strong vehicle for introducing the various specialties of different members of the cast, each one of whom is an artist in his or her line.

## A Triumphant Tour.

After a triumphant tour of the South and Pacific Coast, Sam S. Shubert's "A Girl from Dixie" Company settled down in St. Louis for a two solid months run during the Exposition and was voted one of the real attractions of the World's Fair. The Century Theatre, one of St. Louis' best play houses, was crowded nightly during the seventy odd performances of this charming musical play. "A Girl from Dixie" will be presented at Morton's Theatre Friday night, Oct. 28.

A new romantic love story has been dramatized and is called "The Moonshiner's Daughter." It is a play far above the average and introduces many really scenic ideas which are little short of wonderful, particularly the reproduction of an Alison still in full operation and its destruction by fire. The Alison is a revenue men and assessors' battle between them and the moonshiners. A large company of clever players and some bright specialties are promised. At Temple Theatre, matinee and night, Oct. 29. Matinee prices, 15 and 25 cents. Night 25, 35 and 50 cents.
